

# Sci-Tech Futures Internship Programme

We offer full & part time paid internship opportunities for Science and Technology students all year round, available to first, second, third year and graduated students!

## Benefits

- Choose from a wide spectrum of science and technology roles
- Test potential career options
- Could lead to gaining further employment
- further employment with their host organisation
- Earn a wage whilst gaining experience

“I've no doubt that my work experience helped me secure a job working for environment and conservation charity Nurture Lakeland within days of completing my MSc.”  
LEC graduate  
Andy Beanland
